Products highlights

The next stage in formula for your growing baby. Pediatricians' #1 Choice for Easiest Formula on Baby's Tummy!* GOOD START PLUS 2 Ready-to-Feed Baby Formula (16 x 250 mL) is designed to complement the expanding diet of older babies, and contains added iron and calcium. Iron is important for making red blood cells, and calcium helps build strong bones and teeth. GOOD START PLUS powder baby formula also contains expert recommended levels of DHA, an Omega 3 fat that contributes to your baby's normal physical brain & eye development, and galactooligosaccharides, a baby-friendly fibre. Just like our GOOD START Stage 1 formulas, GOOD START Stage 2 formulas contain COMFORT PROTEINS, which are 100% whey proteins that are partially broken down using our unique process for small tummies. Our ready-to-feed formulas are convenient and easy-to-use. No water, no measuring, and no mixing – just shake well, open, and pour into a sterilized bottle.

This non-GMO*** baby formula is designed for babies from 6 months and older, and comes in recyclable packaging.

*More pediatricians trust GOOD START as the most well-tolerated routine infant formula than any other brand. Data on file.

**Like all infant formulas.

***Ingredients not genetically engineered.
